**ASX ANNOUNCEMENT (ASX Code: ANG)****27 June 2019****Workplace accident - Indonesia**

Austin Engineering Limited (Austin) regrets to advise that an employee of its Indonesian operation has been involved in a fatal workplace accident at our facility in Batam. The accident occurred at approximately 4.30am on Thursday, 27 June 2019 (Indonesian time).

Austin extends its deepest condolences to the employee's family, friends and colleagues at this difficult time. Counselling services have been made available to the family, local employees and their families, and Austin will start an immediate investigation into the incident. Austin's Managing Director, Peter Forsyth, will be travelling as soon as possible to Batam.

End

About Austin Engineering: An Australian based engineering company, headquartered in Brisbane, with operations in Australia, Asia, North and South America. In Australia Austin manufactures, assembles, repairs and maintains (on and off-site) products used in the mining and resources sector. Key product lines include dump truck bodies, water tanks, excavator buckets and materials handling equipment. In Australia and South America specialised field services to the mining industry are provided by Austin's site services divisions. The equipment and service needs of mining and oil and gas-related customers in Asia are delivered through a world class production facility on Batam Island in Indonesia. Austin's facility in the USA is based in Casper, Wyoming and is an industry-leading designer and manufacturer of high-efficiency dump truck bodies and water tanks. It services the North American, Mexican and Canadian mining markets. In South America, Austin has operations located in Chile, Peru and Colombia that manufacture, repair and maintain dump truck bodies and other mining products for their respective markets.
