# THE STUFF OF MYTH AND LEGEND

**WHEN YOU NEED  
TO WORK HARDER,  
FASTER AND SMARTER,  
THINK BIG - DIG TUFF.**

## **ARMADILLO**

**Mainetec has now introduced a new generation  
of electric mining shovel high performance dippers.**

Three years in development the new look dipper is the future of the mining of mining shovel enhancement incorporating high performance, zero maintenance and simplistic design features to reduce total cost of ownership for your electric rope shovel mining fleet.

Suits all OEM Electric Rope Shovels  
in a variety of sizes.

Fitted with latest self-lubricant  
bushes system

Innovative design resulting in a high  
performance dipper

Mainetec static equaliser and door  
pin system to minimise door tripping  
downtime events

Fitted with latest 2.0 iTrip system

Proven iTrip system minimises downtime  
resulting in lower operating costs

Innovative smoother liner package  
design for improved fill and empty times

Increases hang time by over  
65% (Double the duty cycle)

### **Less steel, more dirt, greater productivity**

Proven design through FEA analysis // Reduces material hang up and maintenance costs //  
Optimized material flow // Increased machine availability through design // Quicker fill times meaning increased  
productivity // Increase machine availability by design // Greatly reduced on-site preventive maintenance
